WOMEN AID STRIKERS

Miners' Wives and Daughters Take an Active Part.

FARMERS TO EXPRESS SYMPATHY.

Agriculturists in Pittsburg Coal Country Getting Up a Big Demonstration in Behalf of Strikers—The Uniformity of Sentiment More Slowly.

Pittsburg, Aug. 18.—The contemplated plan to have the women make marches has been definitely decided upon by the strike leaders, and the wives and daughters of the strikers will now take up the work which the men have been enjoined from doing. It is the intention to begin at once and have the women do the marching while the men remain in camp. The leaders think the injunction is not operative against women, and it remains to be seen what the outcome will be.

A new element is to be introduced in the situation at an early date. The farmers of the entire country surrounding the several camps are making extensive preparations for a demonstration to show their sympathy for the striking miners. They propose to have a parade, headed by a band, and march down the Saltsburg road and up over the hills. There will be no "on to the mines" sentiment or any effort to get the miners out. No missionary work is to be attempted, the demonstration is purely for the purpose of showing sympathy for the strikers. The preparations for the event have been carried on secretly, but the story was given out last night by one of the prime movers. He says the class of men who will compose the parade have no fear of interference and will not disband at the command of a few deputies.

About 600 strikers from Thoms Run, accompanied by about 150 women and children, marched to Camp Victory, near Canonsburg, yesterday. They will remain at the camp until Saturday, when a meeting will be held. Several of the officials will be present and address the meeting. About 500 more men and women are expected to arrive at the camp by Saturday. The forenoon at the camp was spent in singing and dancing by some, while others prepared dinner. In the afternoon a line was formed, headed by a band and led by the women, and a march made to the mine of Cook & Sons, where operations are still being carried on, although but a few men are at work. About 30 of these miners joined the strikers.

The Salt Against the De Armita.

Suits and counter suits promise to be one of the most prominent features of the coal miners' strike. While the New York and Cleveland Gas Coal company has been prosecuting its injunction case the miners have been gathering material on which to bring suits, not alone for wages, but for trespass.

President Dolan said that as soon as time afforded, the miners' officials will bring action against the officers of the New York and Cleveland Gas Coal company. The question of the right of the strikers to visit employees of the company at their homes and plead with them and the right of deputies to interfere with a man when he is walking on a highway toward a residence, even though he is compelled to walk on the property of the company, will be looked into. While speaking on the subject President Dolan said:

"In this battle it must be remembered that the laws have also been enacted for our benefit, and we intend to see that we get justice. Yet it may take a little time to do it. I can say, no matter how the case is decided, whether we win the battle or lose it, none of our men will go before the courts of Allegheny county to answer a criminal charge as a result of the strike if it can at all be prevented."

The Un-Formality Agreement.

In the opinion of a number of coal operators the uniformity agreement will not receive the support its articles are said to warrant. A canvass of operators shows that they are not rushing to the committee with signed agreements in their hands. In fact they are holding back, and each one seems waiting to see what the other intends to do. The uniformity committee refuses to divulge the names of the operators who have affixed their signatures to that instrument, and inquiry tends to show that only three firms have made a decisive step in the matter and signed the agreement.

A number of coal men stated that they yet had the question under advisement, although they thought it improbable that they would sign. Others stated that they were waiting for the New York and Cleveland Gas Coal company to head the list and seemed unwilling to have their names enrolled until President De Armita announced that his company had actually signed.

The committee claims to have secured the signatures of a number of coal firms under operators whose places of business are out of the city. So far as can be ascertained, however, the only Pittsburg firms that are enrolled are those represented by J. J. Stoyler, who has signed only for his Panhandle mine; Henry Floorsheim, who was the first man to place his name at the foot of the articles; and David B. Breckenridge of the Eclipse Coal Company, whose mines are at Coal Center.

The Situation at Wheeling.

Wheeling, Aug. 18.—Committees of Belmont county strikers are closing up all the piddling banks on the Ohio side, with the exception of one which supplies Bellare's waterworks. Sentiment against this move is strong, and the eastern Ohio strike leaders do not favor it. Manufacturers are getting West Virginia coal or putting in natural gas. There will be no sympathetic strikes among iron workers on account of the use of West Virginia coal. There has been a heavy increase in the amount of

Fairmont coal going west via Wheeling. The three coal carrying roads centering here are handling more coal than at any time since the strike started. The strikers have not made a move against the coal trains, their disastrous experience of 1895 being a lesson they have learned thoroughly.

TARIFF AND RAILWAYS.

Opinion of Canadian Minister of Railways on the Dingley Bill.

Ottawa, Aug. 18.—The minister of railways, Hon. A. C. Blair, has returned to the city and was asked as to what he thought of the alleged attempt to construct section 22 of the Dingley bill so as to make it operate severely against Canadian railways. In reply the minister said that he did not think it was the intention of congress to enlarge the scope of the section from what it appeared in the Wilson act.

The language used in the amendment undoubtedly made it a little broader, but he did not think it was intended to apply to railways, although perhaps it was capable of that interpretation. He advised the Canadian press to keep cool about the matter, because, he added, it would be time enough for Canadians to adopt a line of action when the authorities at Washington interpreted the clause as some interested parties were anxious to have it interpreted.

Report From Seal Fishers.

Washington, Aug. 18.—Captain Shoemaker, the chief of the revenue cutter service, has received a report from Captain Hooper, commanding the Bering sea patrol fleet, in which he says that on July 6 the Grant landed Professor Stejneger, the American seal commissioner, on Commander Islands, where the British ship Linet was found, with Commissioner Barret Hamilton on board. The British ship Linet, with Commissioner Darcy Thompson, was expected in a few days. A scarcity of seals is reported on the Commander Islands, and very few have been seen in the sea going or coming. The report also states that owing to the scarcity of seals the low prices offered by dealers and the high price demanded by the Indian hunters, the majority of the British Columbia sailing fleet will not fit out this season.

The New Japanese Battleship.

Washington, Aug. 18.—Officers of the navy department have been much interested in the report of the trial trip of the Yashima, the new Japanese battleship built in England. She is the fastest battleship afloat, and it is claimed from the showing made on her trial trip that she is one of the greatest fighting machines ever built. She is 372 feet long, with 73 feet beam and 26.3 feet draft, and has 12,400 tons displacement. Under 14 air pressure for four hours she made 19.22 knots, and for a single hour 15.16 knots. She has the very best armor, ranging in thickness from 18 to 14 inches. Naval officers say that there is no equal to her in point of speed, and while there is some discussion as to the amount of coal she will consume there seems to be no question as to her splendid type.

Trouble Among Fishermen.

St. Johns, N. F., Aug. 18.—The friction between the fishermen on the French coast and the fishermen of Newfoundland and Commander Bourke of the British flag ship Cordoba is increasing in consequence of the latter's crusade against resident fishermen for packing lobsters in defiance of the modus vivendi between England and France, under the terms of which only a limited number of factories are permitted to the fishermen of each country pending arbitration as to the general question of which nation has the sole right to the lobster fisheries. Newfoundlanders disregard the agreement and are catching lobsters all around the coast.

Excitement on Board Battleship.

Portland, Me., Aug. 18.—There is great excitement here over a most extraordinary state of affairs on board the British battleship Royal Sovereign, which is about to sail for three years' service with the Mediterranean squadron. The relations between several of the officers and the seamen are acutely strained. The latter declare that they are suffering from a variety of very serious grievances, among which and especially objectionable is the deferring of the usual leave. Fifty men have deserted. All the cells on board ship are full, and the supply of food is not sufficient for the large number undergoing punishment.

Maneuvers of Torpedo Boats.

Washington, Aug. 18.—Considerable interest is taken in the proposed maneuvers of the torpedo flotilla since the orders issued by Acting Secretary Roosevelt. Mr. Roosevelt contemplates visiting the flotilla when it reaches some point in the south, either at Savannah or Florida. There will be but one regular naval engineer on the flotilla. The steam engineering of the other vessels will be managed by machinists and others who have acquired some knowledge of naval engineering.

Canova's Slayer Had Accomplices.

London, Aug. 18.—The Daily Mail says it has ascertained that Michel Angiolillo, the assassin of Premier Canova del Castillo, now under sentence of death, was in London during the jubilee festivities. Angiolillo witnessed the procession and resided with various anarchist comrades. It is believed that some of these were accomplices before the fact in the murder of Canova.

Legion of Honor Meeting.

Buffalo, Aug. 18.—The supreme council of the American Legion of Honor has convened here, with Supreme President John M. Gynell presiding. The reports of the supreme president, secretary, treasurer and trustees were read. An effort will be made to amend the by-laws of the association, which, it is said, do not conform with the laws of several states.

MURDER OR SUICIDE?

Body Found in a Public Park With Revolver by Its Side.

SOME SUSPICIOUS CIRCUMSTANCES.

Although Hundreds of Children Were at Play in the Immediate Neighborhood, None Saw the Shooting or Heard the Report of the Pistol.

New York, Aug. 18.—The body of a man about 30 years of age, clad in a black diagonal coat and vest, cheap, gray striped trousers and wearing an outing shirt, laced shoes and brown derby hat, with the initial "H." has been found in Mount Morris park, located in the Harlem district of the city. There was a bullet hole in the stranger's head, and a 33 caliber revolver with five empty shells was found alongside the corpse. A surgeon who examined the body when it was found said that the man had been dead five or six hours.

The police are of the opinion that the man committed suicide, but the very conspicuous place in which the body was discovered lends a peculiar phase to the case which the authorities are endeavoring to explain. The body lay at the foot of a tree on the mound opposite the belfry tower, and the policeman who first noticed it thought that the stranger was taking a nap. At the time hundreds of children were playing about the mound.

The deceased had black hair, a stubby growth of beard, and his hands are those of one who toiled at manual labor. Two pieces of paper were found in the dead man's pockets. One was a bill from the Third Avenue Cable company, charging John Hunter, a gripman, for some windows broken in car No. 10, and the other was a note addressed to John Hunter and signed by John Schuck, 925 Steinway avenue, Long Island City, N. Y.

At the barns of the Third Avenue cable road it was stated that a man named John Hunter, answering the description of the deceased, had worked as a gripman until three or four days ago. He had worked for the company six months, but was discharged for disobeying a rule of the road relative to the taking and dropping of the cable at Sixty-fifth street.

Yacht Collides With a Lighter.

Stamford, Conn., Aug. 18.—Captain W. B. Sutton of New Rochelle, N. Y., captain and owner of the sloop yacht Nirvana, put in here and reported his yacht in collision with an unknown steam lighter. The accident happened when about five miles from Stamford. The yacht had been on a sail to Thimble Island and was returning. A large hole was stove in the side of the yacht, and as she shipped a good deal of water, Captain Sutton, with his friends, started to row ashore, leaving the two members of the crew to beach the boat on the Long Island shore. The party in the gig lost themselves in the darkness and did not reach shore for several hours. The yacht has not been heard from.

Odd Fellows' Convention.

Syracuse, Aug. 18.—The grand lodge of Odd Fellows has convened in this city. Grand Master Pessoa, Grand Secretary Deunert and Grand Treasurer Bullenkamp presented their annual reports, showing the order to be in a flourishing condition. A resolution was introduced requesting the representatives to the supreme lodge to use their influence toward having the constitution of the order amended so that saloon keepers and bartenders may become members. The prospects are that the resolution will be adopted.

Armor Plate Tested.

Washington, Aug. 18.—The ordnance bureau of the navy department has tested a sample of armor which is to be used for the superstructure of the battleships Kentucky and Kearsarge. It was a 6 inch plate made by the Bethlehem Iron company. Two shots were fired from a 6 inch gun, the projectile being an armor piercing shell, one at a velocity of 1,462 foot seconds and the other at 1,575 foot seconds. Both shells were smashed on the plate, which was neither cracked nor pierced. The armor was approved by the test.

A Cocaine Victim.

New York, Aug. 18.—A man who was about 40 years of age was found unconscious in Central Park. At the Roosevelt hospital the physicians said he was suffering from cocaine poisoning and will probably die. A brother of the sick man, who visited the hospital, said that the sufferer is Winthrop Gates, a schoolteacher, of 35 Bennington street, Newark, N. J. He would make no statement about the mysterious case.

Suicide In Central Park.

New York, Aug. 18.—A stranger about 50 years of age committed suicide while in Central park here by shooting himself in the temple. The report of the weapon was heard by a policeman, who found the man down near the central driveway. The suicide had gray hair, blond mustache and was 5 feet 8 inches tall. He wore a gray suit, white shirt and tan shoes.

Veteran Hotel Keeper Dead.

Catskill, N. Y., Aug. 18.—Philip C. Gay, a veteran hotel keeper, died at Gay's hotel here, aged 71 years. He had long suffered from heart trouble.

Extensive Lumber Conflagration.

Eagle River, Wis., Aug. 18.—Fire has destroyed the Gerry Lumber company's yard, with 10,000,000 feet of lumber. Loss, \$150,000.

FIRE RAGING IN A MINE

The Big Utica Shafts In California Ablaze.

A GREAT DEAL OF DAMAGE DONE.

A Thousand Men Will Be Left Destitute by the Disaster—Heroic Efforts Being Made to Subdue the Flames—Several Firemen Suffocated.

Angels Camp, Cal., Aug. 18.—The great Utica mines are on fire. Flames and smoke were discovered coming from the 800 foot level station No. 4. It was with difficulty that the shift made their escape. Six men were cut off, but made their way through the south end of the new shaft. The fire is supposed to have originated from spontaneous combustion, caused by lard and coal oil.

It is impossible at present to estimate the extent of the loss that the fire will cause, but it is safe to say that it will amount to hundreds of thousands of dollars. Not only are the mine owners affected, but the whole town of Angels, which contains a population of 6,000, who are almost wholly dependent upon the miners employed in the Utica group of mines.

There are 1,000 men employed by the company, and should the fire prove as serious as reported these men will be left in destitute circumstances. Every effort is being made to quench the fire as rapidly as possible, but gas and smoke are escaping from all the shafts, which are being rapidly bulkheaded. While stopping up the Utica shafts several firemen were suffocated.

The mine is rapidly being flooded. All the main pipes have been cut, and about 3,000 miners' inches of water are pouring into the shafts. An 8 inch hose is playing water on the Stickle shaft, where the fire was first discovered. It will take at least four days to flood the mine, and it is estimated that in case no more serious results should happen afterward, it will take at least two months to pump out the water and fit the mines for regular operation.

On July 21, 1895, a similar fire occurred, and it was seven weeks before work could be resumed. The shafts are deeper now, and it undoubtedly will take a much longer time.

The Utica mine, which is the largest quartz gold mine that is worked by chlorination process, contained 200 stamps and 14 roasting ovens besides an immense amount of necessary machinery owned by the Hobart estate. A considerable amount of the property formerly belonged to the late Senator Fair. It is estimated that the net profits of the mine exceed \$1,500,000 per annum.

Green Goods Man Arrested.

Boston, Aug. 18.—Inspectors Howard and Houghton of the Bank squad have arrested a confessed green goods and gold brick operator. He is wanted in New York for conspiracy, and the officers have been on the lookout for him for some time. He gave the name of John Doe, but the picture in the Rogues' gallery by which he was identified and which he acknowledged was one of himself, had on its back the names William Hawley, alias Robert C. Gray, alias William C. Woodward. When he was searched, the police found a pawn ticket which had been raised from \$1.50 to \$41.50. In a moment the chief saw an interesting scheme of fraud with which he had not previously come in contact. He will be turned over to the New York officers.

The Hat Fishers' Strike.

Danbury, Conn., Aug. 18.—No settlement has yet been reached in the strike of the hat fishers at C. H. Merritt & Sons' hat factory who have quit work claiming that at the present schedule of prices they cannot make living wages. The firm are hiring non-union men as fast as possible to fill the strikers' places, but as yet have secured but five. Reports from the various factories indicate a return of prosperity, and there are already a number of new men daily coming into the city and have no difficulty in securing work.

Seriously Burned by X Rays.

Denver, Aug. 18.—Charles F. LaCombe, president of the Mountain Electric company of this city, has seriously burned both hands while experimenting with X rays and is confined to his home, undergoing all the tortures attendant upon burns of this nature. Physicians are almost constantly in attendance, and everything possible is being done to relieve his sufferings. Ten days had elapsed after the application of the rays before Mr. LaCombe felt any ill effects therefrom.

Silver Mining Discontinued.

Idaho Springs, Colo., Aug. 18.—As a result of the decline in silver, the La Martine mine has discharged its force of men working on silver lodes. The La Martine has been one of the heaviest producers in the state. The company will now work the gold lodes in the mine. The owners of the silver mines in the upper end of Clear Creek county will also discontinue the working of silver properties and in the future give attention exclusively to the gold bearing veins.

Disappearing Gun Carriage Contracts.

Washington, Aug. 18.—The ordnance bureau of the war department has awarded the contract for building five disappearing carriages to the Bethlehem Iron company of Bethlehem, Pa., at \$28,550 each. This was the lowest bid and the quickest time offered. The first carriage is to be ready in four months, and one is to be completed every five weeks thereafter. These carriages are to be not only disappearing, but they are to be on a swivel for all around firing. They will mount 12 inch guns.

FIRE CHIEFS' ASSOCIATION.

Brilliant Display at Their Convention in New Haven.

New Haven, Aug. 18.—Fully 50,000 people witnessed last night on the Old green or Central square, the greatest electrical display ever given in New England. The illumination was in honor of the visit of the members of the International Association of Fire Chiefs, whose twenty-fifth annual convention opened yesterday. Strung upon hundreds of wires were over 2,000 electric globes, while at either end of the square was an arch, upon each of which was 300 lights.

At exactly 8 o'clock the fire alarm sounded the signal, and instantly the entire park was flooded with light. In the center of the park was a mammoth fixed piece, which, when lighted, displayed the words "Welcome, Fire Chiefs."

The illumination caused a postponement of the evening session of the fire chiefs' convention, for when shortly before 8 o'clock President Devine of Salt Lake City rapped for order there were less than a dozen delegates in their seats.

Some of the prominent persons at the opening session at Warner Hall were Chief Hugh Bonner of New York, Chief Webster and Captain Brophy of Boston, Chief McAfee of Baltimore, Chief Swanwick of Chicago, Chief Archibald of Cincinnati, Chief Humphrey of Pittsburgh, Fire Commissioner Colonel Stevenson of Montreal and Mr. E. R. Cannon of Erie, county Kent, England. The latter was the representative of the British Union Fire brigade and made an address, in which he complimented the firemen of America upon their apparatus and their service.

At the afternoon session a paper reviewing the progress in the service of fire fighting was read by ex-Chief Darrill of Boston, and later Chief McAfee of Baltimore addressed the convention upon the best means to protect firemen from smoke.

The hottest fight of the convention will undoubtedly be over the selection of a place for the next national convention. There are already five cities in the field—Peoria, Ill., Utica, N. Y., Reading, Pa., Omaha and St. Louis. The first two seem to have the lead.

CONDENSED DISPATCHES.

The British steamer Boston City, from New York for Bristol, England, is ashore in the river Avon, near Bristol.

The private park of the late Austin Corbin, at Newport, N. H., containing 10,000,000 feet of lumber, has been sold to lumbermen.

E. H. Esterbrook, division master of the Union Pacific railroad at Ellis, Kan., has been shot and mortally wounded by a discharged employee.

The five year old daughter of Howard Langlois of Rochester is dead from eating mushroom soup. Six other members of the household are seriously ill.

Three young men robbed the bank at Pineville, Ark., of currency amounting to \$8,000. They forced the cashier to surrender the money at the point of a revolver and escaped.

Two children of C. L. King station agent at Mount Forest, Ont., have died from eating canned salmon. One child is seriously and three others slightly ill from the same cause.

Killed After a Card Game.

Pineville, Ky., Aug. 18.—James Felt, Caleb Hatfield and Joe Mallard, all young men of the neighborhood, camped in Cools gap, near Pineville, Sunday, drinking heavily. Before morning Hatfield and Mallard had won all of Felt's money. They then proposed that the card game break up and that a drink be taken before continuing across the mountain. They drank, but Mallard threw the contents of the jug in Felt's face and told him to leave them. The latter then drew his pistol and opened fire, killing both Mallard and Hatfield. The latter is related to the notorious Cap Hatfield.

Husband Suicides; Grief Kills Wife.

Danville, Ill., Aug. 18.—Suicide and grief caused the death of husband and wife in this city. Henry Hammett, an aged and respected citizen, died from the effects of an opiate, and his wife, prostrated with weeping three hours later. His death was the cause assigned for the suicide. Hammett was 62 and his wife 63.

Man Murdered in Saratoga County.

Saratoga, Aug. 18.—Franklin D. Colts has been murdered near Effner lake in the northern part of Saratoga county. The body was found on the roadside with the skull crushed. The police are hunting for the man last seen in his company. No motive is assigned for the murder. He leaves a widow.

THE WILSON ROBBERY

Albert W. Sugden Confesses to Taking the Jewelry.

SAYS HE DID IT FOR REVENGE.

His Arrest May Lead to the Identification of the Writer of Scurrilous Letters to Several Wealthy Families in New York.

New York, Aug. 18.—The central office detectives have arrested the man who on June 23 last plundered the residence of Richard T. Wilson, Sr., at 511 Fifth avenue here and stole jewelry and cash amounting to \$2,000. Oddly enough, the thief has proven to be Albert W. Sugden, the former valet of Mrs. Wilson, who not long ago instituted a suit against his victim, claiming over \$1,000 for detective services. The impelling motive for the theft, too, was not the plunder itself, which has been recovered intact, but revenge for real or fancied wrongs.

Sugden, who is a slender, fair haired Englishman, 23 years old, with a smooth shaven face and genteel appearance, gave his present address as 327 Vanderbilt avenue, Brooklyn. His capture revives interest in the slanders which were anonymously circulated about the name of Mrs. Cornelius Vanderbilt, Jr., formerly Miss Grace Wilson, and may lead to the discovery of the man who, on letter heads of the Metropolitan and Knickerbocker clubs, wrote scurrilous stories about the young woman.

The Robbery Reported.

Richard T. Wilson, Sr., on June 24 last reported at police headquarters that his mansion on Fifth avenue had been robbed the night previous and that an entrance had been effected without the breaking of any door or window.

The detectives assigned to the investigation of the burglary learned that Sugden had been seen in Mr. Wilson's house on two occasions after he had left the latter's employ and that no one knew how he had obtained an entrance.

This information was the basis of the suspicion that caused the former valet to be watched by the authorities. Finally a detective stool pigeon, whose name is also Albert Sugden, gained the confidence of the suspected young man and finally wormed from the latter the details of the robbery and the inside particulars of the suit which the valet had brought against Mr. Wilson.

Czar Won't Receive Ferdinand.

Vienna, Aug. 18.—It is asserted here on good authority that Emperor Nicholas declines to receive Prince Ferdinand of Bulgaria because of the quarrel with Austria over M. Stoiloff's recent alleged anti-Austrian imperial house during the trial of Captain Boitcheff, former aid-de-camp of Prince Ferdinand, for the murder of Anna Szimon, his paramour, an Austrian subject.

Colorado's Flower Carnival.

Colorado Springs, Aug. 18.—The fifth annual flower carnival has been inaugurated with the horse show, which was an unqualified success. The carnival will be continued with a festival of music. There will be a military pageant at Broadmead, terminating with a sham battle, in which 1,000 United States troops from Fort Logan and the state troops will join.

Turkish Commissioner Returns.

Constantinople, Aug. 18.—Murad Bey, former imperial commissioner of the council of the public debt and now the leader of the Young Turks, who fled from Constantinople in the latter part of 1895 and made his way to Russia, subsequently going to Paris, has arrived here from the French capital and was received at the Yildiz kiosk.

Against Profanity and Intemperance.

Harper, Kan., Aug. 18.—A movement auxiliary to the temperance crusade in this city has been started by the young women of the churches here by their forming an organization and taking a pledge not to go with men who drink, smoke or use profane language. The meeting was called by the daughter of Rev. Henry Farwell.

Killed by a Cable Car.

New York, Aug. 18.—A man about 35 years old, clad as a laborer, while crossing the tracks of the Columbus avenue cable road opposite Manhattan Square park, was knocked down by a car. Before the emergency could be stopped the man was dragged 15 feet and had been so terribly mangled that he died in a few minutes.

Be Jealous It Was Andrew's Bird.

Christiana, Aug. 18.—M. Machuron, who prepared Herr Andrew's balloon, says it was arranged to start the first carrier pigeon 24 hours after the ascent, and he believes that the bird shot between North Cape and Seven Islands by one of the crew of the sealing vessel Alkon was probably the first sent out.

Turkey Alarmed at Anarchy.

London, Aug. 18.—A dispatch to The Times from Constantinople says that the pope, alarmed at the state of anarchy which exists in Turkish Kurdistan, has ordered a general mobilization in the vilayet of Bagdad and other eastern vilayets on the Persian frontier.

Sentence of Death Confirmed.

Madrid, Aug. 18.—The supreme council of war has confirmed the sentence of death passed by court martial at Vergara on Michel Angiolillo, alias Goli, the assassin of Premier Canovas del Castillo. The murderer will be executed on Thursday or Friday.

Good Crop Prospects.

Buenos Ayres, Aug. 18.—According to the official report, the cereal crop prospects in the Argentine are excellent.

HONORS FOR AN EDITOR.

Appointed Special Commissioner to the Paris Exposition.

Maj. Moses P. Handy, of Chicago, Selected to Lay Out the Ground Plan for the American Exhibit in 1900.

The president has appointed Maj. Moses P. Handy, of Chicago, "special commissioner" to go to Paris to lay out the ground plan for the American exhibit at the Paris exposition in 1900. The position carries with it a salary of \$5,000. There were several competitors for the appointment, though the name of Maj. Handy was the only one that was seriously considered. Provision for the commission was made in the general deficiency act, the paragraphs relating to it, and indicating in a general way the duties attached to the position, being as follows:

"That the invitation of the republic of France to take part in an exposition of works of art and the products of manufactures and agriculture of all nations, to be held in Paris, commencing the 15th day of April and closing the 5th day of November, 1900, is accepted; and the governors of the several states and territories be and are hereby requested to invite the people of their respective states and territories to make a proper representation of the productions of our industry and of the natural resources of the country, and to take such further measures as may be necessary in order to secure to their respective states and territories the advantages to be derived from this beneficent undertaking.

"That the president shall appoint a special commissioner to represent the United States in the proposed exhibition, who shall take all proper measures to provide for the representation of the industries and natural resources of the United States by their citizens in said exposition and shall procure proper space and privileges therefor, and shall make report to the president, to be submitted to congress, on the first day of its next regular session, containing his proceedings hereunder, with such recommendations as he may deem proper.

"For the compensation of said special commissioner not to exceed \$5,000,

MAJ. MOSES P. HANDY.
(Special Commissioner to the Paris Exposition.)

and for all necessary expenses and employment attendant thereon the sum of \$25,000 is hereby appropriated, to continue available until expended."

Maj. Handy is an old newspaper man. He commenced his career as city editor of the Richmond (Va.) Dispatch. From 1873 to 1875 he was an editorial writer on the New York Tribune. Then he went back to Richmond and edited the Enquirer for a year or two, when he cast his lot in Philadelphia, and was managing editor successively of the Philadelphia Times and Press. He was also the chief owner for a long time and editor in chief of the Philadelphia News.

Maj. Handy was commissioner to the Vienna exposition in 1873 and a member of the United States centennial commission at Philadelphia in 1876. When the World's Columbian exposition enterprise came on Maj. Handy took an interest in it and was not only one of the commissioners appointed by President Harrison, but secretary of the commission that visited Europe in 1891. In connection with his other duties on that trip Maj. Handy filled the office of special agent of the treasury department and paid the bills. During the fair he was chief of the bureau of publicity and promotion, and in 1895 was made editor in chief of the Times-Herald.

Wonderful New Instrument.

Gaston Seguy, of Paris, has invented what he calls the "human lorgnette." He was the first man in France to successfully repeat the experiments of Roentgen. He is 32 years old, is director of the Radiographic institute of France, and has invented a dozen scientific appliances. The great advantage of his new apparatus is that it is no larger and is as convenient to handle as a parlor stereopticon. In its small compass he has put all the electric storage cells, transformers and tubes necessary for obtaining the X ray. He claims that it will show the interior of the human body with as much facility and exactitude as it reveals the contents of a trunk or traveling bag. That by its use one may see the action of the heart and all the organs, and locate and diagnose without error all diseases and fractures of the bones and many severe forms of organic diseases.

Tornado Caves for Children.

A movement has been started in Kansas to have a tornado cave attached to every schoolhouse as a refuge for the children in times of those destructive visitations which are there so frequently, requiring special provisions of refuge and protection from them. Once in the cave, no matter how violent the storm, the children are safe. In some of the schools tornado drills have been instituted.

G. A. R. ENCAMPMENT.

Last General Order of the Commander-in-Chief.

Contains Needed Intelligence of the Arrangements for the Gathering at Buffalo, N. Y. - The Grand Parade.

The last general order issued by Gen. Clarkson, commander in chief of the Grand Army of the Republic, pertains largely to the coming national encampment. Former orders issued from the national headquarters have called attention to the coming encampment, and the fact that it is to be held at Buffalo during the week beginning August 23. The present general order contains information additional to that already set forth, and consequently will be of great interest to members of the Grand Army in the city and vicinity, and indeed to citizens in general. In part the order is as follows:

The commander in chief, escorted by the department commander, the delegates and comrades of the department of Nebraska, will leave Omaha on Saturday, August 21, at six p. m. by special train via the Chicago & Northwestern railroad, and thence by way of the New York, Chicago & St. Louis (Nickel Plate) railway to Buffalo, arriving at that city on Monday, August 23, at eight a. m.

National headquarters at Omaha will close on Saturday, August 21, and will reopen at the Hotel Iroquois, Buffalo, Monday, August 23, at ten a. m. The executive committee of the national council of administration will meet at Hotel Iroquois at 12 m., August 23. The national council of administration will meet at Hotel Iroquois on Tuesday, August 24, at two p. m. The department commanders will meet the commander in chief at the hotel Tuesday, August 24, four p. m. for consultation and final orders as to parade and review. Assistant adjutant generals will report to the adjutant general at the hotel immediately after their arrival. The number of those present of their delegations and the location of their department headquarters.

The thirty-first national encampment of the Grand Army of the Republic will assemble in Music hall, Buffalo, on

THADDEUS S. CLARKSON.
(Commander in Chief Grand Army of the Republic.)

Thursday, August 26, at nine a. m. The annual parade of the grand army will take place on Wednesday, August 25, and will move at ten o'clock sharp from Main street on the Terrace in columns of platoons eight files front—half distance. The route of march will be up Main street to Chippewa, west to Delaware avenue, on Delaware to North, on North past the reviewing stand at the Circle. The reviewing stand will be at the Circle, and will be designated by the national colors. Comrade William McKinley, president of the United States, and other distinguished comrades will review the column with the commander in chief. Having passed the reviewing stand the department commanders will review their commands at Jersey street and Porter avenue, disbanding them on streets parallel to Niagara. All officers and aids desiring to be mounted should at once engage their mounts through the assistant adjutant generals of their respective departments. It is necessary that department commanders should communicate with Comrade D. H. Turner, secretary, Buffalo, at once, setting forth probable number from their departments that will attend, free quarters required, if any, location of headquarters and all necessary and important items. Associations desiring to hold reunions, if not already arranged for, should communicate with Secretary Turner and arrange for time and place. Comrade William McKinley has accepted the invitation to speak at one or more places on Tuesday evening, the 24th.

Gold Mines in Siberia.

A well-known turfman who has traveled the length and breadth of Siberia has something to say of the mines there. "The richest gold-bearing mines in the world," he said, "are in northern Asia, in Russian territory. These mines are worked in a shipshod sort of a manner, without any of the modern equipments that have made mining profitable in other regions. When the trans-Siberian railroad is opened from the Pacific to the Baltic there will be a mining craze caused by the gold discoveries in the Russian territories of Asia that will cause the Klondyke excitement to appear like a ripple on a mill pond."

Poison in Milk and Cheese.

Milk, cheese and other foods are equally as capable of producing a fatal disorder as ice cream. Poison from cheese, though not so common as that from ice cream, frequently occurs. Tyrotoxicon is what causes the trouble in cases of ice cream, milk and cheese poisoning. Ice cream made from pure, fresh milk or cream is a wholesome food. When it has stood very long or has melted and been refrozen it should always be avoided. It should never be purchased except from a reliable dealer.

Great and Extraordinary Sale of Muslin Underwear.

Beginning Aug. 16th and continuing for one week. It had held one very great sale since coming here. This sale is different in every way from any other. It is an EXTRAORDINARY sale of the biggest stock of Muslin Underwear you ever saw in one lot.

A manufacturer needed money at once. We have a big lot of stock on hand. For cash TOMPKINS scored this big lot. It took nerve and pluck to take hold of so large a quantity, but it is here and was bought awful cheap, and it will be let out at this sale at ASTONISHING LOW PRICES. Read quotations below.

Corset Covers.
Trimmed with lace and embroidery 10c, worth 15c.

Corset Covers.
Cotton and muslin trimmed with fine embroidery 25c, worth 35c. Sale price 25c each.

A Lot of Very Fine Corset Covers.
at 50c and 25c.

High Priced Goods.
are just as cheap at this sale as the lower priced ones. Newspaper space is costly. In a sale of such magnitude we could never print all our bargains one item has to stand for a hundred. The other ninety-nine are here. They include every the finest and costliest goods made. But they are not so costly now and here as the makers intended them to be—not by half and way. The point is—the very goods you want you will find at this sale.

You will save a great deal of money by buying now and here and by buying enough to last you two or three years to come.

Muslin Drawers.
Ladies', Misses' and Childs' Muslin Drawers, one big lot, made of good muslin, wide hem, three tucks, always 25c. Tompkins' sales price 12c a pair.

Childs' Long Cambric Slips.
Four goods, 25c, 50c, 75c and \$1 each.

Childs' Short Cambric Dresses.
Slightly made and beautifully trimmed with embroidery at 50c, 75c and \$1 each.

Rain or shine there will be crowds at this sale, Monday. Sale commences at 9 o'clock and continues until the lots are sold out. We have everything advertised in fairly good size lots, but there is no telling how long any lot will last and when a lot is sold it cannot be replaced at double the price.

A very striking fact has been made in the retail business of this city during the past few weeks. Colds and storms that have kept most of the stores empty have had little or no effect here. It takes extra big values to fill a store these wet, muggy, sticky days. The extra big values are here and they are going out into the homes of the people.

To Make This Sale Doubly Interesting.
We quote these prices on other goods.

300 Ladies' Leather Belts.
With harness buckles, 10c, 15c and 20c goods. It's late in the season, hence they will have to go at 5c each.

IN ANCIENT GOSHEN.

Some Local Notes—Personal Mention—Concerning Capacity of Feeling and Worries Great and Otherwise.

From a Special Correspondent.

—At a meeting of the ladies of St. James' Guild, on Monday, it was decided in addition to other improvements to take the lake water into the vestry room of the church. A parlor entertainment will be given by some of the ladies in the near future.

—Mr. and Mrs. Joseph Neustadter, of Cranford, N. J., spent last Sunday at the home of Mrs. Jay, in this village.

—Mrs. Thaddeus Coleman and son, of New York, are visiting relatives in Goshen.

—Edwin Dikeman, of this village, has gone to Indian Lake.

—The writer, not long ago, heard a discussion concerning two women. Each had had her share of trouble, care and sorrow, yet, while the face of one showed that she had borne the burden and heat of the day, the other was comparatively untroubled and placid. The question was whether one woman had deeper feelings than the other. There is nothing about which people are more misjudged than their capacity for feeling. The impulsive person who cries out when he is hurt wounds at his more self-contained brother who takes his punishment quietly, while the latter is equally surprised to think that any one can bear to make such a fuss. It is strange that we should be so exacting in this matter; that we should be so anxious lest our neighbor should not feel his troubles sufficiently. Yet, as a rule, we do worry about it considerably. It does not seem as though we were originally intended to be unhappy, otherwise the world would not have been made so beautiful. There is a good deal of sound common sense contained in a fragment of conversation between two women once overheard by a friend of the writer's. One of the women was abusing the world in the good old way with which we are all familiar, when the other broke in with: "Nonsense, there ain't anything the matter with the world; it's the folks as live in it that makes such a mised-up mess of it." It is very hard to satisfy people. No one particularly enjoys the society of a person who is miserable and talks about it constantly. Perhaps it would do if he were to go off by himself and be wretched, and then come back and tell what he has been doing as briefly as possible. But to return to why, when two people have had apparently equal sorrow, one should look so much more care-worn than the other: it may be that one had endured more physical pain or, it is possible, that in addition to great trials, she had allowed the small worries of life to annoy her unduly. It is very easy to do this, for small things have so much to do with our daily comfort that we naturally attach importance to them, and small worries are very annoying if we will let them be so. Pin-pricks are not dangerous, but they are most irritating. When a bee stings you it hurts to be sure, but you do not lose your temper over it as you do over a mosquito that sings about your head for some time before it makes up its mind where to light and then stabs you in as many places as possible. So, while a great trouble will leave a scar internally that will last a life-time, the effect of the small ones will, not infrequently, be seen more plainly in the face.

BLOOMINGBURGH.

How Local Republican Bosses Manipulate Affairs in Mamakating.

From an occasional correspondent.

The public welfare requires that the methods of certain Republicans in the town of Mamakating be exposed. The father-in-law of a man now a Member of Assembly is anxious that he should be returned, for the Assembly is a safe, pleasant and well-paid place in which to sit. The Member of Assembly likes his job, and he and his papa-in-law lay plans to insure his re-election. The senior member of the combination is a most expert political manipulator, and he assumes the active work, going forth scalping knife in hand to do for all who oppose him.

Not long since he interviewed a Republican residing in Bloomingburgh with reference to his taking the post office. The man replied that he did not want it, for he had business enough; but finally, after much eloquent persuasion, promises, pledges, etc., he reluctantly consented to take it. The matter drifted along, with an occasional reassurance, and a final declaration that he would receive his appointment inside of two weeks. The man now set his house in order, making the necessary arrangements for the office; but this same manipulator came to this man, and blandly and sweetly advised him to withdraw his name, as he could not receive the appointment.

It came out later that a man on the west side of the big hill, who it is said controls a large number of votes, got wind of the promised appointment, and having in his manly bosom an old grudge against the prospective postmaster, sought an interview with the local maker of postmasters, and informed him that the time had come for him to avenge himself on his adversary, and demanded that the office be taken from him, or the votes he controlled would be bagged. The son-in-law and father-in-law. And he had his way, for a new deal was made in regard to the Bloomingburgh post office.

Much the same thing was done by the local boss in regard to the Burlington post office. There is altogether too much politics of a disreputable and discreditable kind in the manipulations that have taken place of late, and many Republicans do not hesitate to express their dissatisfaction and disgust, and to declare that they will not aid with their votes the men who thus disgrace their party.

A VERY CHEAP EXCURSION.

Only \$1 to New York and Return via Susquehanna and Western.

On Thursday, August 19th, the New York, Susquehanna and Western will run a special excursion to New York city from all stations. Middletown to Charlotteburg inclusive, at the popular rate of one dollar for the round trip. This is an excellent opportunity to visit the city, and will no doubt be taken advantage of by a large number.

The Susquehanna and Western stations in New York are convenient to the landings of the Glen Island, Coney Island and Rockaway Beach steamers. Special train leaves Middletown at 6:35 a. m., arriving in New York, Cortlandt and Desbrosses streets, at 10:03 a. m.; West 23d street at 10:10 a. m. Returning, train leaves New York, West 23d street, at 5:55 p. m.; Cortlandt and Desbrosses streets at 6 p. m. For time of train from other stations see posters. d. 11.16.17

DRESS ECHOES OF THE WEEK.

Jackets of box cloth for cold weather have white collars and revers made of white cloth or white cashmere overwrought with spangled metal braids or cut bands of steel, gold and jet ingeniously combined.

A Marie Antoinette fash to be historically accurate must be worn over a pointed bodice.

Boleros and Etons should be worn above a belt or giraffe.

The bicycle skirt of next season, longer than heretofore but not too long, will be adopted by courageous women for shopping, marketing and rainy days.

Silver-gray felt hats in cavalier shape with one or two long grey leathers may have a little bunch of gay velvet, a brilliant buckle or pin, or a rose to set them off.

On some heads and for a few occasions red hats are decidedly charming. A girl writing from Paris says: "My pretty new hat will satisfy you, because you will know it is red the minute you see it."

Black lace over pink is again in vogue for evening wear.

Ruffles will disappear from street skirts only when heavy woollens are in use.

Fluffy appendages and accessories of attire, helms, lace and other fancy boleros and kerchiefs of Liberty silk worn Quaker fashion, are by no means in less use because they no longer appear on verandahs and at garden parties. They accompany and beautify all sorts of indoor gowns, making one do the duty of several.

Since slight women are to wear ruffles from foot to girdle, many a pretty skirt that was shaped when narrowness pleased, will be trimmed without alteration.

Smartness, hitherto the invariable ideal of the cloth gown, is now less sought than decorative effect. This is achieved by trimming, which may be lace, braid, jet or a combination of two or more of these.

Not only broadcloths but various other fabrics in vogue are thus embellished, the trimness which results from absolute simplicity being now relegated to melton, cheviot, tweed and kindred goods, even these being given braid garnitures.

Real laces, such as point applique, Irish crochet, Cluny, Renaissance and Russian, are in great vogue. These are usually applied with little if any laces, the better to display their beauty.

There is just now an unusual demand for medallions of heavy point Venise, Renaissance, Russian and other laces in leaf, floral and geometrical devices.

In a cream linen batiste lace a spray of flowers is copied, and upon an oval-shaped medallion of black chiffon are appliqued stars of Renaissance lace in two or three sizes. Many of these motifs are oval in form and are applied across the closing of bodices after the manner of frogs. Sometimes one size is used exclusively and again the oval is of graduated sizes. From *The Delineator*.

E. M. Huns-well, foreman the in printing and book bindery establishment of A. E. McIntyre, of No. 32 North street, says:

"For a long time I have had something wrong with my kidneys. It runs in our family, for my father had the same complaint. The pain lodged in the small of my back; always became worse if I caught a cold or if I overtaxed myself. Urinary trouble annoyed me, particularly at night, the frequency often compelling me to rise four or five times. I tried doctors' prescriptions and other remedies, but failed to get relief. At last I procured a box of Doan's Kidney Pills at J. E. Mills' drug store. Now when I tell you that the benefit received was so great that I sent a box of Doan's Kidney Pills to my father who has kidney disease, with positive instructions to take them, you can judge in what estimation I hold them. I can recommend Doan's Kidney Pills, and you are at liberty to refer to me."

Struck for Lower Wages.

A large number of Italians clearing away the wreckage of the coal bins at the Edison electric plant in Paterson, whose wages were twelve and a half cent an hour, were allowed double pay for night work, making their pay twenty-five cents an hour. They struck for fifteen cents an hour and time and a half for night work, not realizing that this would make their wages only twenty-two and a half cents. Their demand was promptly granted.

Pine Apple Dyspepsia Cordial.

It has recently been discovered that the juice of the pine apple rapidly digests both animal and vegetable food and is nature's greatest digestive. The Pine Apple Dyspepsia Cordial combines with the delicious juice of the pine apple other grateful and superior stomach tonics which renders it the most marvelous discovery and cure known for indigestion, dyspepsia, loss of appetite, sour stomach, weight and tenderness in stomach, nausea and sick stomach, sick headache, sleeplessness, frightful dreams, and all troubles arising from disease of the stomach or disordered digestion. It is delicious to take and on account of its wonderful digestive power gives almost instant relief. Sold by J. E. Mills' druggist, No. 2 Empire Block, Middletown.

WEATHER INDICATIONS.
BY ASSOCIATED PRESS.
Washington, D. C., Aug. 18.—Fair to-night and Thursday.

THE TEMPERATURE.
The following was the reading of the thermometer at Frank's drug store, to-day:
7 a. m., 63°; 11 a. m., 71°; 3 p. m., 80°.

WEDNESDAY AUGUST 18, 1897.

The increasing number of murders, robberies, burglaries and other serious crimes reported from country towns in many localities sharply calls attention to the lax administration of criminal justice in rural communities. The fact is there is no place where crime can be committed with as little risk of detection and punishment as in a country town. Crimes, especially those of a serious nature, are of such rare occurrence in such localities that the machinery of justice is not kept in running order and hours must elapse after the commission of a crime before any practical steps can be taken for the detection and arrest of the guilty parties. The result is that many criminals escape and every crime that goes unpunished is a fresh incentive to the commission of a new crime. In this immediate section no serious crimes have been reported of late, but there are rural communities in this and adjacent States that are living in terror, knowing that neither lives nor property are safe. How best to deal with the problem is not an easy question to answer for any solution of it means increased expense to the taxpayer and few rural communities are willing to assume additional tax burdens. In fact pennywise economy in the past has made possible the conditions that make crime easy and safe.

Many newspapers and some educators are frankly discussing the practical effects of the supervision and control that the Regents of the University exercise over the academies and high schools of the State, and they are agreed that in many respects the Regents' methods harm instead of help the cause of education. The chief criticism that lies against the system is that it tends to superficiality. Instead of seeking to acquire a broad and comprehensive knowledge of the different topics of study, the aim of pupils is to "pass Regents" and that done the subjects are dropped as if all knowledge of them that was worth having had been acquired in the smattering necessary to pass the examinations. Teachers encourage this tendency to superficiality but they are scarcely to blame for it. The efficiency of their work is measured by the number of their pupils who pass the examinations, and naturally their efforts are directed to bringing their pupils to the examination mark and all else is lost sight of, until in time teachers may be pardoned if they forget that to "pass Regents" is not the only object and aim that pupils should keep in view. Then, too, the temptation to pupils to secure as many "credits" as possible leads them to dip into many subjects. They only get a smattering of each and their brains are filled with crude and ill-assorted scraps of knowledge. This is bad for pupils and bad for schools, for it makes the courses of study too diffuse and academies and high schools, in their attempts to cover all departments of human knowledge, are no longer able to give that thorough instruction which must be the basis of all education that is really good.

QUARREL ENDED IN DEATH

Father Died of Heart Rupture After Clenching With His Son.

COLEMAN, Aug. 18.—Frank E. Dickenson died suddenly, last night, during a quarrel with his sons over a bound bill. He and his son Leroy, aged twenty-one, locked and fell to the floor, the father dying immediately. The autopsy disclosed a rupture of the heart caused by excitement. The son was placed in custody to await the result of the coroner's inquest.

THE INDIAN REVOLT SPREADING.

Confirmation of the Report That Two More Tribes Have Risen.

BY ASSOCIATED PRESS.

SIMLA, Aug. 18.—News has been received here confirming the report that the Afridis of the Bazaar Valley and the Orakzais have risen. The latter are reported as descending in force on the Kurramthull road, upon which the Sadr post is situated.

The whole frontier seems in flames. The Afridis are marching through Khyber pass upon Jamrud, while the Orakzais are advancing by Kurram, and threatening Sarana.

The Thirty-sixth regiment of Sikhs has been ordered to concentrate at Fort Lockhart, on the frontier.

The Quarrahar and Samil Mazari have combined, and threatened Pachehar, in the Kurram valley, which is garrisoned by detachments of Goorkhs and Sikhs.

BOMB EXPLOSION IN PARIS.

Supposed Attempt on President Faure's Life Causes Great Excitement—No One Injured.

BY ASSOCIATED PRESS.

PARIS, August 18.—President Faure, accompanied by M. Hanotaux, Minister of Foreign Affairs, and Admiral Besnard, made his departure, to-day, for St. Petersburg, to visit the Czar. Scarcely had his train left the station when the crowd on the streets through which the President had traveled was thrown into great excitement by the explosion of a bomb at Boulevard Magenta and Rue Lafayette.

It was supposed that an attempt on the President's life had been made.

Investigation showed that the bomb was a harmless one, and that no one was injured. A searching official investigation will be made.

The Injunction Made Permanent by Judges Stow and Collier.

BY ASSOCIATED PRESS.

PITTSBURG, Aug. 18.—When court opened this morning Judges Stow and Collier handed down their decision in the injunction proceedings of the New York and Cleveland Gas Coal Co. against the United Mine Workers of America. The preliminary injunction was made permanent and the plaintiff was ordered to file a bond of \$5,000 to answer such damages as may be sustained by the defendants by reason of the injunction.

The court also ordered a similar decree drawn in the case against the Binghamton miners in which an injunction was applied for by Rimas C. Crawford.

THE DIVINE HEALER.

He Appears in New York and Opens Headquarters.

New York, Aug. 18.—August Schrader, who calls himself a divine healer, has been here for a week, but it was not until last evening he made his presence known by opening a headquarters at 1437 Madison avenue and displayed a banner with the words "divine healer" emblazoned on an orange field.

Schrader says he was born at Green Bay, Wis., 31 years ago, and at the age of 13 God told him he liked him, and was pleased to make him his instrument to help people get rid of their afflictions. Since that time, he says, he has been fairly prosperous.

Six months ago, he claims, he made a tour of the west and was last at Atlanta, where he blessed 45,000 people. Most of the applicants for his "blessing" were negroes.

Two persons, a man and a baby, were blessed by Schrader, and from all appearances there is not much interest here in the divine healer.

EAGLES OFF FOR NORWICH.

Went Away at 7:30 in Their Special Train—Ample Provision Made for Their Needs During the Journey—To Spend the Day at Liberty.

Eagle Hose and Patrol Company, No. 2, started on its trip to Norwich at 7:30, this morning, aboard its special train of four cars. The company marched from its truck house to the Wickham avenue depot headed by the Dewitt Camp Fire and Drum Corps, both organizations presenting a fine appearance.

The patrol wagon, covered with canvas, occupied a flat car, next the engine. The wagon has just come from the hands of the painter and is as spick and span as fresh varnish can make it, while the metal work has been burnished and polished till it's brighter than the Norwich girls' bright eyes.

Mose and Ben, the company's fire team, had a car to themselves. They are in the best of condition, and are expected to cover themselves and their company with glory when Driver Otis Handenburgh shows Norwich people and the up-country firemen how Eagles go to a fire, by sending the team flying along North Broad street, Norwich, to-morrow afternoon, in response to an imaginary alarm.

The third car was a baggage car, and here was stored the handsome chest of the officers of the department, and several barrels of something that William Vogel seemed to know all about though there were several others standing about who looked knowingly at him. Vogel reported and winked the off-eye. There were cigars galore. The department chief and his assistants, Messrs. Hignam, Schmitt and Lorenz, presented the boys with 100 City Attorney John F. Bradner's wet" his appointment with 159, and Gabriel Tutill had 75 "Gabe's" stacked up in readiness.

In the fourth car were the quiet, sedate Eagles—like southern gentlemen before a lynching. Some of them looked as if they had left their bunk too early, while others looked as if they had stretched up and primed but a moment before entering the train. Del Cranton was happy, and Emil Martin smiled all over. "Mince" Davenport, tall and handsome in his neat-fitting blue uniform, was only outshone by George Hoffman, the popular second assistant. "Charley" Taylor forgot his uniform trousers, and he'll have to "set 'em up" before he returns. Chuck, full of anticipation was Fred Kuhlman, of Ellenville, who is a guest of the company; while Alderman Hirst beamed over his glasses happily at the "boys," for Joshua is the "friend of the firemen."

Capt. Weber's dignity minus the badge—was a close second to that of Chaplain J. Newton Emery's, and both sat with their blind eyes toward the baggage car. Other members in the party were John A. Wallace, Louis Wolf, Alderman Ayres, O. G. O'Neil, Morris B. Wolf and Isadore Bodway. Mr. and Mrs. E. D. Crans were also of the party. Mayor Barry and wife, Aldermen Magee, Tenney and Allen, will go up later.

The company will spend the day at Liberty, and will go on to Norwich, this afternoon, reaching there at 7 o'clock this evening.

The company, about forty-five strong, and is officered: President, Charles L. Elwood; Foreman, Leon Simpson; First Assistant, H. Gerhardt; Second Assistant, G. W. Hoffman.

SHOT AND KILLED HIS BROTHER

Sad Tragedy at Warwick This Morning—Boys Played With Firearms in the Absence of Their Parents.

George W. Becker, Jr., of Warwick, went to his work in the railroad shops, this morning, and Mrs. Becker being away, their two sons, aged eleven and nine respectively, were left at home alone. Shortly after 7 o'clock they procured their father's loaded shot gun and revolver. The shot gun was laid upon the bed and soon after, while Austin, the eleven-year-old son, was in range, the younger brother, aged nine, pulled the bed cover. The trigger caught and the gun was discharged, the ball shell found in No. 7 shot being sent into Austin's neck, killing him instantly.

Coroner Becker was called and he is holding an inquest, this afternoon.

Home From Their European Trip.

Water Commissioner W. H. Rogers and Dr. W. J. Nelson, who have been spending several weeks in England, landed in New York, this morning, from the Alien line steamer Monaghan and reached this city on the Erie's 1:04 train, this afternoon. They are both looking well and have evidently derived much benefit from their transatlantic trip. A number of friends were at the station to welcome the travelers home.

THE CONDUCTORS' CLAM BAKE.

A Very Large Crowd at Liberty—Four Hundred Middletowners in Attendance

The clam bake of Millard Division, Order of Railway Conductors, is being held at Liberty, to-day, and the indications all are that it will be one of the most successful and satisfactory ever given by the organization.

The 21st Company's band paraded the streets, this morning, and its enlivening music reminded all that the big day of the year for O. and W. conductors was here. About 400 Middletowners went up on the special and regular trains, and many lovers of clams were picked up at stations along the line.

A goodly number of those who couldn't get away will go up on the evening train, which will reach Liberty in time for the evening bake.

LARGE CROWD ON THE GROUNDS.

Special dispatch to the Argus.

LIBERTY, N. Y., Aug. 18.—The clam bake is a big success. It is estimated that there are 4,000 people here. The first bake was opened at 12:30, and it was a fine one. All the big guns in the conductors' organization are here here looking out for the visitors. Eagles took the town by storm, and every uniform was a magnet for the city guests stopping here.

INTO A THRESHING MACHINE.

One of a Farmer's Legs Ground Off Before the Machine Could be Stopped.

James Campion, a farmer living near Little Britain, this county, lost his balance while at work above a threshing machine, Tuesday morning, and tumbled into the machine feet first. The spikes of the cylinder began at once to grind his right leg to pieces, and they took it off entirely above the knee. A workman saved Mr. Campion by holding him around the waist until the machine was stopped. Campion was sixty years old, and a member of St. Patrick's Church, Newburgh.

He died at 6 o'clock, Tuesday evening.

Masons Will Visit Monticello, Thursday Night.

Superintendent Walker, of the P. J. and M. R. R., has arranged to run a special moonlight excursion from Port Jervis to Monticello, Thursday night, in the interest of a Masonic fair which is being held there. The train leaves Port Jervis at 7:15 p. m., and leaves Monticello at 11:15 p. m. A number of Masons from this city will attend.

Sugar Beet Culture in Central New York.

Farmers in the vicinity of Rome, N. Y., contracted to plant about 1,000 acres with beets for the best sugar factory which has been erected in that city. A yield of ten tons to the acre was expected, but indications are that it will be much larger, some farmers reporting that their crop will be at least twenty tons.

Coroner Harding To Bake Clams.

Coroner Joseph Harding, Port Jervis' expert clam baker, has arranged to give a clam bake to the best people of Port Jervis, at Meanderhor Park, August 25th.

"Joe" will also make a bake Sept. 9th, for the Newburgh and Warwick newspapers, who are guests of Port Jervis No. 2.

A HINT TO MAYOR BERRY.

How Mayor Paddy Gleason and Mayor Mike McGuire Make Themselves Solid With Their People.

Mayor Gleason, of Long Island City, recently gave a picnic to 7,000 children and Mayor McGuire, of Syracuse, is planning to give 4,000 children of that city a similar treat. Both these mayors are long-headed men, who want to be popular with their people, and who know that the man who makes the children happy lays strong and solid foundations of his popularity.

Isn't there in this a hint to Mayor Berry? There must be several hundred children in Middletown who haven't had a picnic this year. A few special trolley cars, a small investment at the butcher's, the baker's, the candy maker's, and the peanut roaster's, a few cans of the Mayor's own sky blue brand of milk skinned on both sides and the trick is done.

Really, Mr. Mayor, this is worth looking into. Give the children a picnic, and you can rise superior to the "Dayton crowd" and the "old gang." You'll be "a tiger man" then Boss Dayton, and as for ex-Boss Boyd—well you won't have to walk on the same side of the street that he does, unless you want to.

Grand Army Men Going to the Buffalo Encampment.

The Grand Army Posts will send good sized delegations to the encampment at Buffalo, Sunday. Among those who will go are Aldermen Bastien and Ogden, O. A. Keeler, Jr., A. B. Wheeler, John Adams and John Miles. They will leave on No. 5 on the O. and W.

HIS BROTHER'S KEEPER.

BY GWENDOLEN OVERTON.

WHEN a man who is yet young arrives at the conclusion that life holds nothing more for him and that he can only devote himself to the good of others, there is still plenty of keen watchfulness in store for him. If he gets up after a bad blow and is actively miserable and somewhat hateful and resentful, he can yet be happy. But self-mutilation is not natural, and anything unnatural brings its own punishment. Another person and other people cannot be the center of the universe for very long. There may come a jar that will put you out of plumb for a bit, but you swing back to your normal position.

The jar that came to Osborne was a hard one. The girl to whom he was engaged told him that her parents were forcing her to marry a certain rich man. Now parents, in these days, do not force one to marry anybody; but Osborne would have believed whatever the girl had chosen to tell him. He believed this, and thought she was a beautiful, suffering martyr, and there was a tragic scene, which she did cleverly, and a parting. After that Osborne lost even ambition, which had been a ruling passion almost above his love. The girl was mean enough, too, to keep his misery active by writing to him, now and then, bewailing her gilded captivity.

Life, he told himself, was henceforth a vain thing, only fit to be used in the service of others. It is not easy to serve others picturesquely in the army. There are no needy and no fallen ones—because when they fall they cease to be in the army. So Osborne bethought him of his brother Alexander.

Alexander lived on a ranch—as Osborne had done. He was 17 years old. At 16 Osborne had been the support of a widowed mother and two children. He had had no boyhood in particular. It had all been work, making the ranch pay. Only those who have tried it know what that means. Alexander was not afflicted after this fashion. He lived on his new stepfather, and was envious of his brother.

Now when Osborne brought Alexander on to San Antonio, the first evening of his arrival he spoke to him thus: "There's a first-class school right in the town, Alex." Silence. "I want you to study hard, youngster, to make up for the time you've lost up there in the wilderness."

Alex braced his feet against the porch railing and tipped back his chair. "It strikes me I've lost more fun than about anything else. It ain't fair, Herbert. You've been having a picnic for the last eight years, while I've been slaving in the fields; and I don't see it in the light of settling down right away to digging at books. I want a swing."

If a nature is ambitious, it cannot be altered. The ambition may transfer its object from self to some one else, but it will not die. Osborne's had transferred itself to his brother. So his heart sank. But he had learned toleration. "Well, I'll give you three months. But you must study to make up for it."

"Three months nothing! What's the matter with six?"

"A good deal is the matter. You'll be nearly 19 in six months, and you don't know as much as the average boy of 14. Of course I'm not blaming you for that. You haven't had a fair chance." Osborne forgot that, at 14, he himself had passed the competitive examination.

"I guess I haven't—at that or anything else."

Young Osborne had gone barefoot all his life, and had never had a whole new suit of clothes to his back, nor a dime to call his own. Osborne gave him dancing pumps and various seemingly suits and a reasonable allowance.

But he thought the allowance small. "Say, Herbert, I can't make out with that measly ten. Make it 15, will you?" he complained.

"No," said Osborne.

Osborne's "no's" were always definite, but Alexander persisted. "Why not? You're a lot more than you need."

"I know best about that. Ten dollars is enough, and it's all I can give you. I've your education to pay for, recollect. You've no expenses outside of an occasional theater ticket and tennis ball—or you shouldn't have."

"You always did catch all the plums," said Alexander.

Then the mail orderly gave Osborne a letter from the girl. Osborne looked at it and believed every word of it. And living—even for others—seemed a hard thing for the next few days.

Alexander felt his oats promptly. He excelled at baseball, he learned tennis and dancing by magic and he rode well. Osborne had never been so popular. He had served the Mammion of Ambition exclusively until he had transferred his allegiance to the God of Love. Since then he had been a martyr—and martyrs are more pleasing in stained glass than in life. And now he returned to the first cult, and ambition filled him. He rejoiced in his brother's beauty, which was of the Bertie Cecil type, in his magnificent stature, in his agility and his athletics. He mounted him on the finest horse to be had in that part of the country—and wore a shabby uniform himself all winter. He read with him for two hours daily, and was well pleased when the boy remembered just enough to give his conversation a peculiarly brilliant turn. He argued great things from this when Alexander should go to school. But when he went to school, Osborne saw the truth.

"Alex, the account of you is very bad. You've barely scratched through on two things, and you've failed on mathematics altogether. I've told you that mathematics is the test at the Point," Osborne admonished.

The time when witches were expected to charm away diseases is gone by. In this age woman understands that only sensible and scientific means will cure the ailments of their sex. Only an educated, experienced physician is competent to prescribe remedies for diseases of the delicate and intricate feminine organism.

One of the most skillful specialists in the world in treating the ailments of their sex, is Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y. His "Favorite Prescription" is acknowledged as the most perfect and thoroughly scientific cure ever devised for all feminine disorders and weakness.

It reaches the inner source of trouble and cures naturally and completely; strengthening both the special organism and the general constitution. It is the only medicine of its kind devised by a regularly graduated skilled specialist in diseases of women. Any woman may consult Doctor Pierce either personally or by letter, and will receive sound professional advice, free of charge.

Dr. Pierce's great thousand-page free book, "The People's Common Sense Medical Adviser," contains several chapters on women's physiology, and many valuable suggestions for home-treatment. It has over three hundred engravings and colored plates. It is a complete storehouse of practical wisdom. A strongly paper-bound copy will be sent absolutely free on receipt of twenty cents in one-cent stamps to pay the cost of mailing only. Address: World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y. A handsome cloth-bound copy costs ten cents extra, thirty-one cents in all.

To Benefit Others.

The Editor of The Bloomfield Iowa Farmer Writes of the Good Done by DR. MILES' NEW HEART CURE.

THERE ARE a great many unselfish men and women who wish others to know what has restored them to health and happiness. Mr. C. F. Davis, publisher of one of the best newspapers in Iowa, writes from Bloomfield Ia., Aug. 18, 1896. "My desire to benefit others prompts me to write this. We have used Dr. Miles' Remedies in my family for nearly two years with most gratifying results. We wouldn't now do without them. My wife had been weakly and down nearly every summer for the past fifteen years. Dr. Miles' Heart Cure is exactly what its name implies; a sure cure for a weak, fluttering, palpitating heart, and Dr. Miles' Nerve and Liver Pills are most excellent."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

To Grocers.

We have direct proof that peddlers of washing powders say that the stuff they're selling is "made in the same factory" as Pearlina—and that buying from them will save going to or ordering from, the grocery store. Do you want people "saved" that. You have these same washing-powders in stock. Possibly you are giving them out, whenever you can, in place of Pearlina. You are trying to push them into notice; they are trying to crowd you out. You think you are "making more money on them." But will it pay you, in the end?

Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlina." IT'S FALSE. Pearlina is never peddled, and if your grocer sends you something in place of Pearlina, be honest—send it back.

An Arithmetic Expert.
"What is your age, madam?" asked the attorney for the prosecution, as a witness on the other side took her seat.
"I always have to count it up, sir," she replied, sweetly. Then, after a silent effort at mental arithmetic, she added:
"I'm going on 23, sir."
"You are good at subtraction, I see."
—N. Y. Journal.
